#PushYourself

www.vivafitness.net

'Thoughts become things' when you leave the realm of average thinking and follow your dreams by applying the right decision, driven by your mind. Fitness is a 'state of mind', which needs constant trigger to put ones thought into action.

Every action needs a reason for accomplishing it. Staying fit manifests in the physicality and inner well-being which everyone aspires. Every time you make a resolve and step-up your fitness goals, life gets the better of you and positive thoughts lead to positive outcomes.

VIVA Fitness is an accomplished brand in the world of fitness equipment, designed for both commercial and home use. It thrives on the belief that with the right set of tools, a fitter person is better off in accomplishing his personal and professional goals.

AB1000

COMMERCIAL AIR BIKE

The resistance is delivered by fan, which is driven by power and speed pedal along with two handles that move back and forth. Users are able to determine intensity level and resistance.

26 ABS blades molded into one piece which makes it more stable and quiet than traditional steel blades in using condition.

The workout data can be synchronized to your smart devices via Bluetooth or ANT+. Then you can track the data with 3rd party applications which manage your training more scientific. It helps users to make a more reasonable training plan.

Consider electroplated steel gets rust easily, the seat support and pedals of AIR BIKE are made of aluminum alloy, which is less prone to corrosion, helping to provide long service life.

Compared to ordinary, AIR BIKE with its chain always sways and bumps and needs scheduled maintenance. AIR BIKE's V-Belt drive provides smooth and consistent ride without extra maintenance or high cost.

A highly muscular Black male bodybuilder is shown in a gym, performing a lat pulldown exercise. He has a very large, thick braid that runs down the center of his chest. He is wearing black briefs and is pulling down on a metal handle attached to a cable. His muscles are extremely defined and glistening. The background shows gym equipment and a sign that says "ARMS".

SS SERIES UNIQUE FEATURES

✦ Instructive - simple, step-by-step instructions and training tips help users get the most out of their exercise. Makes exercise easy and enjoyable

✦ Steel weight stack cover for user safety and machine protection.

✦ Seats made from integrated foam to give perfect support and avoid de-shaping even after long use.

✦ Aircraft spec 5.7mm American LOOS cable with 3,500 lbs breaking strength. End fittings tested to 200,000 cycles using full weight stack.
✦ Pure steel weight stacks.
✦ D: 106.2mm powerful nylon pulley in full alignment with cable for lifetime use.

✦ Classic frame design for professional training
✦ Tubing: 3mm, 50mm by 100mm flat oval tubing
✦ Finish: Powder-coated painting color for premium look and also for protection from rusting.

✦ Compact - space efficient design requires minimal floor space.
✦ Rubber grip prevent from being slipped.

A photograph of a very muscular man with a beard and dark hair, wearing blue athletic shorts and a thin necklace. He is standing in a gym, looking towards the camera with a serious expression. The background is blurred, showing gym equipment and other people. In the top right corner, there is a red logo for 'VIVA FITNESS' and a hashtag '#PushYourself'.

LADDER BARREL

The Pilates Ladder Barrel is unique. It offer both active and passive back extension exercises. Of course as with all the pilates equipment it is designed to allow many other exercises to be performed.

The Pilates Equipment barrels are excellent for developing back strength and promoting trunk extension which is crucial to developing good posture.

Pilates Barrels utilize gravity rather than springs for resistance.

NJ-1006A

SPINE CORRECTOR

The Spine Corrector is the ultimate piece of equipment for aligning and mobilising the spine and can also contribute to an improved posture. As a diverse Pilates tool, it can also be used to perform exercises lengthening and strengthening the torso, shoulders, back and legs while correcting or restoring the spine's natural curvature.
